EXPERIENCE

Registered Nurse — Med-Surg, Neuro & Telemetry — Dec 2025 — Present

Providence Sacred Heart Medical Center — Spokane, WA

- Care for med-surg, neuro, and telemetry patients, interpreting cardiac rhythms and responding quickly to changes.
- Provide stroke care, including focused neuro assessments and time-sensitive interventions.
- Administer IV medications, antibiotics, and titrated drips safely and accurately.
- Complete thorough head-to-toe assessments and document care in Epic (EMR).
- Educate patients and families on cardiac and stroke recovery, medications, and discharge planning.
- Collaborate with physicians, pharmacists, and case managers on individualized care plans.

Registered Nurse — Medical-Surgical — Jan — Oct 2025

Vibra Specialty Hospital — Portland, OR

- Delivered medical-surgical care in a long-term acute care hospital for higher-acuity patients.
- Managed ventilators and provided tracheostomy and oxygen therapy for complex respiratory patients.
- Performed wound care, including pressure-ulcer prevention and treatment.
- Monitored and maintained central and PICC lines and feeding tubes.
- Administered IV medications, antibiotics, and blood products with precision.
- Coordinated with interdisciplinary teams on care transitions and discharge.
